

## 영 어

[1 ~ 5] 밑줄 친 부분에 들어갈 말로 가장 적절한 것을 고르시오.

1. The local government introduced new regulations to ensure public safety, and all officials were required to \_\_\_\_\_ these rules strictly to avoid any legal issues.

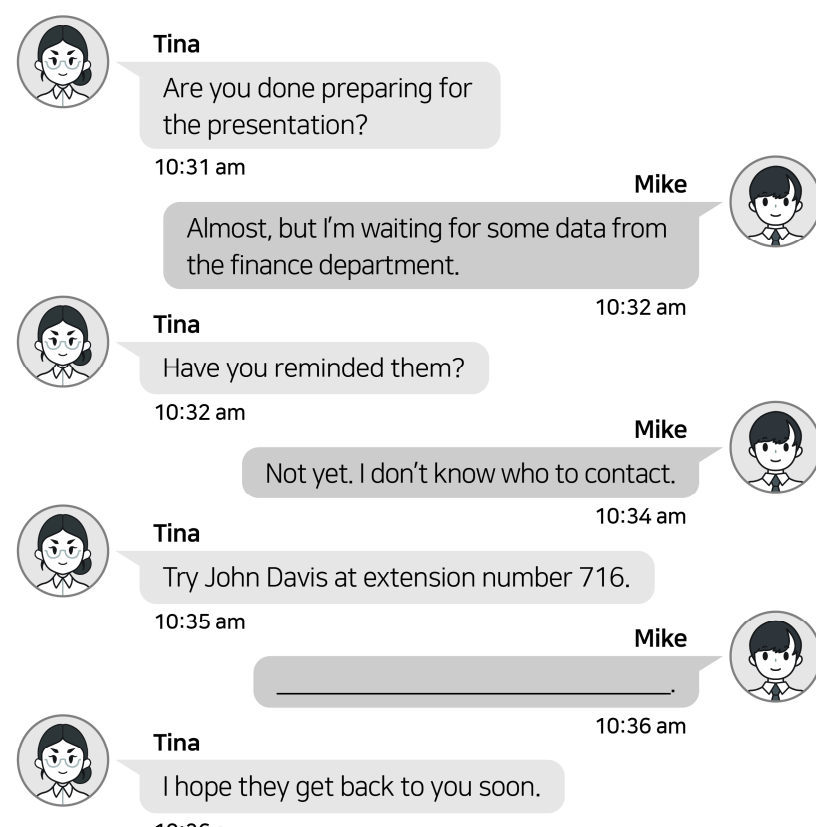

① follow  
② ignore  
③ break  
④ create

2. From now on, child care subsidy rates will increase up to 90 percent for \_\_\_\_\_ families earning less than \$25,000.

① prosperous  
② offensive  
③ eligible  
④ royal

3. The text begins with an introductory chapter \_\_\_\_\_ the role that electromagnetics has in various aspects of a wireless communications system.

① describes  
② describing  
③ has described  
④ being described

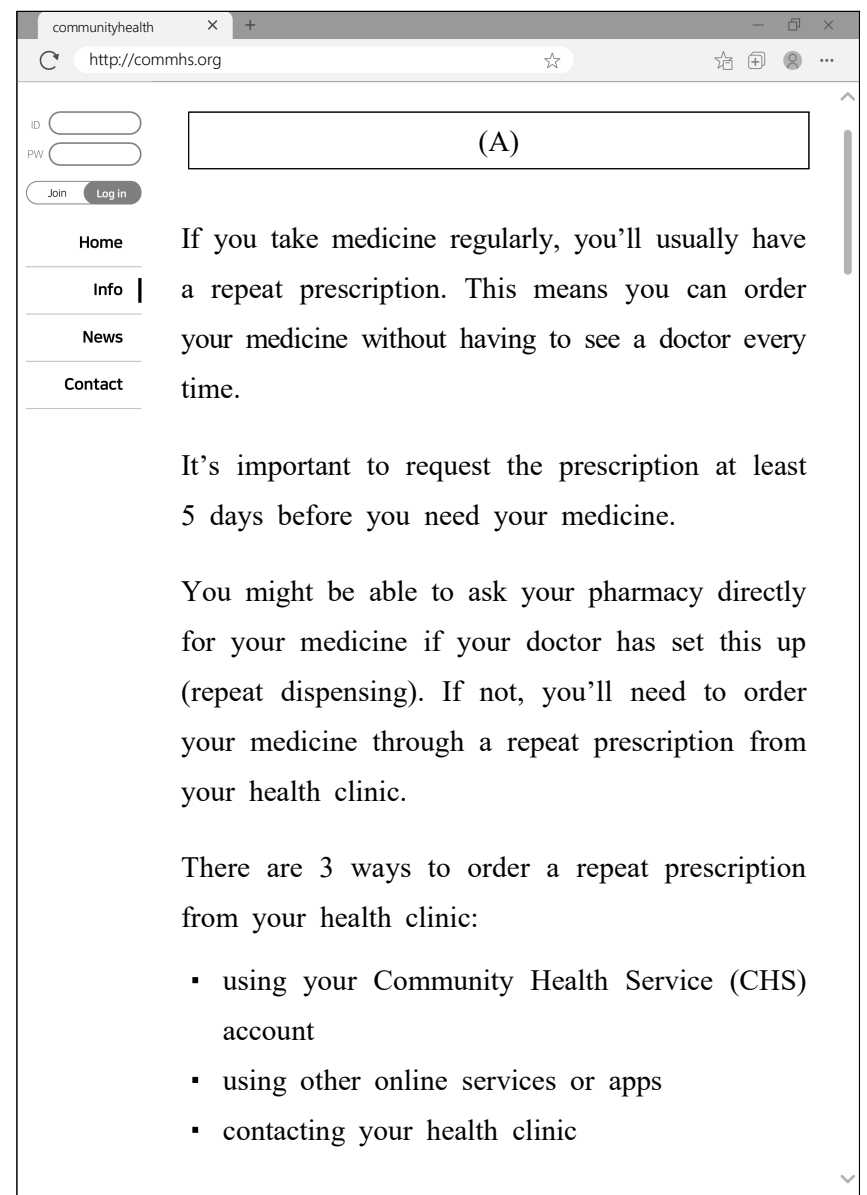

4. 

① No need to call him now  
② I'll contact him immediately  
③ Let's cancel the presentation  
④ I don't know the extension number

5. A: Hello! How can I assist you today?  
B: Hi there! I'd like to send a package to Mexico.  
A: We'll need to weigh the package to calculate the shipping cost. Do you need a box?  
B: Yes, please.  
A: \_\_\_\_\_  
B: Please give me the largest box you have, one that can fit a lot of bubble wrap.

① Would you like more bubble wrap?  
② We have a variety of box sizes.  
③ Is this shipment urgent?  
④ Postage is 4 dollars.

6. (A)에 들어갈 윗글의 제목으로 가장 적절한 것은?

① How to Order a Repeat Prescription  
② When to Report Side Effects of Medicine  
③ When to Get Vaccinated through the CHS  
④ How to Book an Appointment with a Doctor

7. 윗글의 내용과 일치하지 않는 것은?

① 정기적으로 약을 복용하는 경우, 반복 처방을 받을 수 있다.  
② 반복 처방은 약이 필요하기 적어도 5일 전에 요청해야 한다.  
③ 의사가 반복 투약을 설정한 경우, 약국에서 직접 약을 받을 수 있다.  
④ 반복 처방은 CHS 계정을 통해서만 신청할 수 있다.

### Renewed Main Street

Renewed Main Street (RMS) is the next big project in Hampton Council’s Regeneration program.

Since it first made the pages of the City Center Long-term Plan (CCLP) in 2012, RMS has been described in different ways: linear park and tree-lined avenue.

Last week, the green light was given by the council for construction of the eastern section of RMS to begin. The head of the council says it will be a historic day when the construction process begins on 11 April.

RMS is a leader of contemporary urban design, putting people at its heart. It is a pivotal feature in the CCLP—re-endorsed in 2024—the blueprint for the city center’s ongoing renewal.

8. 밑줄 친 heart의 의미와 가장 가까운 것은?

- ① center
- ② silence
- ③ price
- ④ freedom

9. 뒷글의 내용과 일치하는 것은?

- ① RMS는 2024년에 처음 도입되었다.
- ② RMS의 서부지역 공사 시작이 지난주에 결정되었다.
- ③ RMS의 공사 공정이 4월 11일에 시작된다.
- ④ CCLP는 도시의 교외 지역 개발을 위한 계획이다.

Times New10ptG G G -G G

Dear residents,

International Dog Day is held on 26 August every year, created in 2004 by pet lifestyle expert and author Colleen Paige, to bring awareness to the condition of animals and to encourage adoption.

This year is the 20th anniversary of the day and our organizers have prepared ways to celebrate, including taking your dog out for a walk, adopting a dog or donating blankets to a local rescue center.

We hope to inform our residents about the importance of animal well-being.

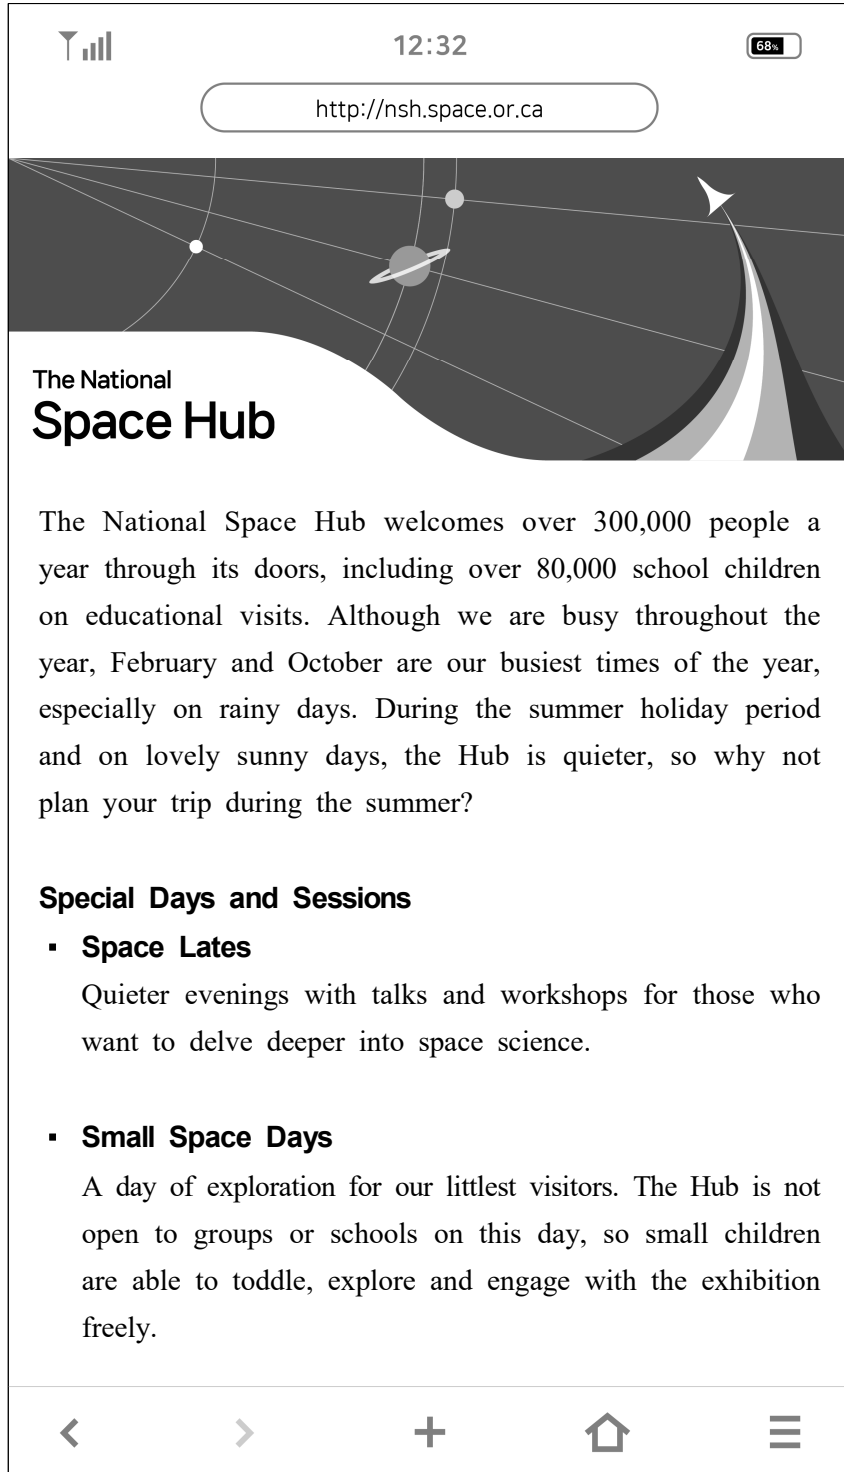

Come join us at Coopertown Park from 9 am to 5 pm!

Sincerely,

Pete Park  
Mayor of Coopertown

- ① 강아지 용품의 판매를 촉진하려고
- ② Colleen Paige의 생일을 축하하려고
- ③ 동물 보호 센터의 직원 채용을 공지하려고
- ④ International Dog Day 행사를 안내하려고

11. 다음 글에서 The National Space Hub에 대한 내용과 일치하지 않는 것은?

The National Space Hub

The National Space Hub welcomes over 300,000 people a year through its doors, including over 80,000 school children on educational visits. Although we are busy throughout the year, February and October are our busiest times of the year, especially on rainy days. During the summer holiday period and on lovely sunny days, the Hub is quieter, so why not plan your trip during the summer?

**Special Days and Sessions**

- **Space Lates**  
Quieter evenings with talks and workshops for those who want to delve deeper into space science.
- **Small Space Days**  
A day of exploration for our littlest visitors. The Hub is not open to groups or schools on this day, so small children are able to toddle, explore and engage with the exhibition freely.

- ① 학교 현장 학습으로 방문할 수 있다.
- ② 여름 휴가철과 맑은 날에는 방문객이 더 적다.
- ③ 특별 프로그램 기간에는 저녁에 진행되는 행사가 있다.
- ④ 유아들이 방문할 수 있는 기간은 없다.

12. 다음 글에서 Clean Energy Conference에 대한 내용과 일치하지 않는 것은?

## Clean Energy Conference

"Clean Energy for a Brighter Future"

Mark your calendar! Clean Energy Conference will be held on 4 September. This global event at New York Research Center serves as a powerful call to action, spotlighting the urgent need for a just and inclusive shift to clean energy. Hear from leaders, innovators, and advocates as they come together to share insights, inspire collaboration, and accelerate meaningful progress in the clean energy transition.

**Location**  
New York Research Center, Room 5

**Date**  
4 September (Thursday) 2025

**Time**  
10:00 - 18:00

In-person attendance is open for participants with a valid NY Research Center pass.

More information: <https://www.nyrc.org/energy>

Tune into this conference live on NY Web TV to join virtually!

- ① New York Research Center에서 개최된다.
- ② 청정에너지 전환에 대한 논의가 있을 것이다.
- ③ 9월 첫째 주 목요일에 열린다.
- ④ 누구나 대면으로 참여할 수 있다.

13. 다음 글의 주제로 가장 적절한 것은?

Chocolate is loaded with calories, but its fattening potential is offset by its positive metabolic effects. In a study, more than 1,000 men and women reported their chocolate consumption over a week and had their body mass index (BMI) measured. Those who ate chocolate more frequently had lower BMIs than those who didn't eat as much, despite the fact that chocolate lovers consumed more calories overall and didn't exercise more than the others. Eating chocolate five or more times a week on a regular basis can translate into a one-point drop in BMI on average, compared with those who don't eat it. While chocolate may not cause weight loss, its health benefits, which stem from its antioxidants, may help the body absorb fewer calories from fat, thus tipping the scale toward a slimmer figure. Which is not too good to be true.

- ① the link between chocolate consumption and heart disease
- ② the merits of eating chocolate despite its caloric content
- ③ the differences in chocolate consumption by gender
- ④ the influence of exercise on antioxidant levels

[14 ~ 15] 밑줄 친 부분 중 어법상 옳지 않은 것을 고르시오.

14. A great pilot is constantly aware of their surroundings. Watching for changes in the weather and in the paths of other aircraft is vital. The same is true for ① being a great CEO, which is why the business press is full of information about what's happening in the business environment. ② Equally important for a pilot's success is understanding their aircraft: checking fuel levels, ③ to test safety systems, and keeping an eye on engine performance. To ensure a successful trip, pilots utilize checklists before, during, and after the flight. For CEOs, the same should hold ④ true.

15. Technology has fundamentally transformed ① the way we collectively work and ② connects over the last decade—from video calls with our teams and loved ones, to digital translation and working remotely. It has never been easier ③ to collaborate seamlessly across geographic boundaries. However, in today's complex global environment, it's more important than ever ④ for business leaders to create genuine human connections, to listen and learn.

16. 주어진 문장이 들어갈 위치로 가장 적절한 것은?

The most important factors are your height and weight.

Smokejumpers are a special type of firefighter. They jump from planes or are lowered by helicopters into areas that are difficult to reach by car or on foot. They race to put out fires as fast as they can. ( ① ) At a fire site, smokejumpers first examine the land and decide how to fight the fire to stop a fire from spreading or to slow its progress until full, ground-based firefighters arrive. ( ② ) Using basic equipment such as shovels and axes, smokejumpers clear land and burnable materials. ( ③ ) They carry water with them, too, but only a limited amount. Although the majority of smokejumpers are men, more women are joining now. ( ④ ) Smokejumpers employed in the U.S., for example, must be between 120 and 200 pounds, so they don't get blown away by the strong winds or get hurt when they land.

17. 다음 글의 흐름상 어색한 문장은?

People often wonder whether we could harvest electrical power from lightning. ① On the face of it, it makes sense; after all, lightning is electricity, and there is indeed a substantial amount of power in a lightning strike. ② A typical lightning strike delivers enough energy to power a residential house for about two days. ③ That means that even the Empire State Building, which is struck by lightning about 100 times a year, wouldn't be able to keep a house running all year round on lightning power alone. ④ Wind farms are one of the major generators of electricity. Even in regions with a lot of lightning, the power delivered to the ground by sunlight outweighs the power delivered by lightning by a factor of a million. Generating power from lightning is like building a wind farm whose blades are turned by a tornado: impractical.

18. 주어진 글 다음에 이어질 글의 순서로 가장 적절한 것은?

While a professional home energy assessment is the best way to determine where your home is losing energy and where you can save, you can conduct your own simple but diligent walk-through and spot many problems in any type of house.

- (A) When walking through your home, keep a checklist of areas you have inspected and problems you found.  
 (B) This list will help you prioritize your energy efficiency upgrades. Do not assume that just because your home is recently constructed that there are no opportunities to save energy.  
 (C) This "do-it-yourself" home energy assessment will not be as thorough as a professional home energy assessment, but it can help you pinpoint some of the easier areas to address.

- ① (A) - (C) - (B)                      ② (B) - (A) - (C)  
 ③ (C) - (A) - (B)                      ④ (C) - (B) - (A)

[19 ~ 20] 밑줄 친 부분에 들어갈 말로 가장 적절한 것을 고르시오.

19. As you know, we are trying to make offices more \_\_\_\_\_. We asked our staff for suggestions, and they have given us many good ideas. We have also asked environmental experts for some tips and we are now ready to propose a number of changes. Firstly, we are going to ask all our staff to turn their computers off at the end of the day. Secondly, we are going to introduce separate drinking water taps so that staff stop bringing plastic water bottles to work. We are going to ask everybody to use their own glasses and mugs and not to bring coffee and tea into the office in paper cups. We also plan to install solar panels for heating and solar powered air conditioning to reduce energy consumption. We are therefore holding a meeting next Friday to discuss the changes and answer any questions you have.

- ① eco-friendly                      ② labor-efficient  
 ③ space-efficient                      ④ worker-friendly

20. Worrying is a repetitive mental attempt to resolve a situation that has an uncertain, possibly negative outcome. As a mental operation, it is similar to rumination in that both are repetitive and self-focused, and feature an inability to shift attention from negative thoughts. Both activities also harm attention, erode problem-solving, and worsen mood. The distinction between them is that rumination typically involves thinking about trouble in the past, whereas worry \_\_\_\_\_. You ruminate on a bad conversation you had yesterday; you worry about the conversation you need to have tomorrow.

- ① often tends to be more productive in the end  
 ② involves shifting attention to present circumstances  
 ③ helps people recall happy memories from childhood  
 ④ usually focuses on events that have not yet occurred
